## CARBON STEEL

Subject: Proposition 65 Declaration

Rev. 01, 04/14/2021

Dear Customer,

with refer to the "Safe Drinking Water and Toxic Enforcement Act" of 1986, also known as "PROPOSITION 65", the State of California has issued a list of substances that can cause genetic mutations, cancer or other reproductive harm. The list of the substances is yearly updated and is available at the following link: <https://oehha.ca.gov/proposition-65/proposition-65-list> (last update occurred on 03/19/2021).

This measure aims to protect the human health with regard to a potential exposure at these substances.

California Proposition 65 does not impose any quantitative limits about the concentrations of these substances but it is mandatory to indicate their presence in articles or mixtures, if present.

Marcegaglia Carbon Steel S.p.A. produces steel articles which could contain nickel, listed in the California Proposition 65.

The substances concerned by the adoption of this measure could cause health effects in case of ingestion, inhalation or dermal contact. The articles manufactured by Marcegaglia Carbon Steel S.p.A. do not release any substances that can be ingested, inhaled or dermal absorbed in normal condition of use.

However, if the articles provided are subjected to other treatments or different uses, it is not possible to exclude an accidental release of the main material constituents.

Consequently, it could be necessary to apply the following warning label when the articles are exported and placed on Californian market:

**WARNING:** This product can expose you to chemicals, including Nickel compounds, which are known to the State of California to cause cancer. For more information go to [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov)
